Sit & Learn:

Join us for an interactive presentation to develop skills to connect with your loved one with dementia

"Building Skills to Engage People Living with Dementia" will focus on how to offer supportive cognitive cues, use handling techniques to support participation, and reframe "behaviors" as expressive communications of unmet needs. This program will help your loved one by increasing your knowledge and awareness about brain change. It will be held over zoom and includes Q&A after the presentation. Call us with questions or for further details. Be sure to RSVP!
